

Due: Feb 16th

Name: _____

Assignment 01 - Play Dao with a classmate, friend, or family member

Task 01: Print out the board game and instructions from <http://www.bcug.org/dao-board.pdf>

Task 02: Find 8 objects, 4 of one color and 4 on another color (pennies and nickels work well).

Task 03: Find a classmate, friend, or family member to play. Read the rules. Play a few games.

Task 04: Answer the following questions:

What is the difference between science and engineering?

2. How many years will you spend in primary/secondary education (kindergarten- though 12th grade)?

3. How many years to get a vocational degree?

4. How many years to get a bachelor's of engineering degree?

5. How many years to get a master's of engineering degree?

6. About how many years will you work at a job (assume you graduate from college when you are 22 and you retire at age 65)?
